3 NOTES TO THE FINANCIAL STATEMENTS

GENERAL ACCOUNTING PRINCIPLES FOR THE PREPARATION OF THE ANNUAL ACCOUNTS

The annual accounts have been prepared in accordance with generally accepted principles in the Netherlands for financial reporting, RJ 640 Non-Profit Organizations and RJ 650 Fundraising Organizations.

Valuation of assets and liabilities and determination of the result takes place under the historical cost convention. Unless presented otherwise at the relevant principle for the specific balance sheet item, assets and liabilities are presented at nominal value.

Income and expenses are accounted for on accrual basis. Profit is only included when realized on the balance sheet date. Losses originating before the end of the financial year are taken into account if they have become known before preparation of the financial statements.

Revenues from goods are recognised upon delivery. The cost price of these goods is allocated to the same period. Revenues from services are recognised in proportion to the services rendered. The cost price of these services is allocated to the same period.

PRINCIPLES OF VALUATION OF ASSETS AND LIABILITIES

Cash and cash equivalents

The cash is valued at face value. If cash equivalents are not freely disposable, then this has been taken into account in the valuation.

Current liabilities

On initial recognition current liabilities are recognised at fair value.

PRINCIPLES FOR THE DETERMINATION OF THE RESULT

Determination of the result

The result is determined based upon the difference between the nett turnover and the costs and other expenses taking into account the aforementioned valuation principles.

Benefits

The nett turnover consists of revenue from the sale of goods during the reporting period after deducting discounts, rebates and value added taxes.

Gross margin

The gross operating profit and loss comprises nett turnover, the changes in inventories of finished goods and work in progress, work performed by the entity and capitalised, other operating income, cost price and cost of outsourced work and other external charges.

Financial income and expenses

Financial income and expenses comprise interest income and expenses for loans (issued and received) during the current reporting period.
